PRASHANT SHRESTHA

Software Engineer | .NET & FinTech

Kathmandu, Nepal • +977-9823299998 • prashantmessi08@gmail.com • github.com/prashantshreh-pixel • linkedin.com/in/prashant-shrestha-dev

PROFESSIONAL SUMMARY

FinTech Software Engineer with 4.5+ years of experience engineering high-concurrency financial platforms, core remittance processing engines, and multi-tenant digital wallet systems. Experienced in C#, ASP.NET Core, Entity Framework Core, and microservices design. Proven track record of implementing enterprise design patterns (Factory, Repository, Clean Architecture), AI tools, and package-based modular architectures to drive maintainability and performance across local and international payment networks.

CORE TECHNICAL COMPETENCIES

- **Backend & Frameworks:** C#, .NET Core, ASP.NET Core, Entity Framework Core, ASP.NET MVC, Web API, Python (Django)
- **Architecture & Design Patterns:** Clean Architecture, Package-Based Architecture, Factory Pattern, Repository Pattern, Dependency Injection
- **Integrations & Protocols:** RESTful Web APIs, SOAP, Swagger/OpenAPI, Payment Gateways, Third-Party Financial Integrations
- **Databases, DevOps & Tools:** SQL Server, MySQL, PostgreSQL, Stored Procedures, Git, GitHub, GitLab, TortoiseSVN, Jira, Postman, AI Tools

PROFESSIONAL EXPERIENCE

IME Ltd. — *Panipokhari, Kathmandu*

Software Engineer | *December 16, 2024 – Present*

- **Core Remittance Engine:** Architecting and maintaining the core **IME Nepal** remittance processing engine, handling high-volume transaction throughput across domestic and cross-border financial corridors.
- **API Integrations:** Integrating local and international third-party banking, SOAP, and remittance APIs, ensuring low-latency data exchange, strict security protocols, and real-time transaction reconciliation.
- **Software Architecture & AI Workflows:** Implemented package-based modular design and applied the Factory Design Pattern to abstract payment gateway logic. Leveraged AI tools to accelerate development, refactoring, and integration testing.

Prabhu Technology — *Kathmandu, Nepal*

Mid-Level Dot Net Developer | *August 2023 – November 13, 2024*

- **Digital Banking Platform:** Developed backend microservices and core infrastructure for **PrabhuPay**, enabling digital banking and wallet services for nationwide user networks.
- **Transaction Security:** Designed and implemented Maker-Checker authorization workflows within the administrative portal to govern high-value financial operations and ensure regulatory compliance.
- **API Infrastructure:** Engineered and deployed RESTful and SOAP API endpoints for third-party merchant integration and real-time payment inquiries.

Global Square (Freelance) — *Kathmandu, Nepal*

Mid-Level Dot Net Developer | *October 2023 – December 2023*

- **Enterprise Application:** Engineered a Club Reservation System (CRS) web application for Japanese hospitality networks using Jira for Agile task tracking and host/venue management.
- **Database Performance:** Designed normalized relational database schemas and optimized complex SQL stored procedures and user-defined functions to maximize query throughput.

DG Hub — *Kathmandu, Nepal*

Dot Net Developer *(Dec 2021 – Jun 2023)* | ***Dot Net Intern*** *(Sep 2021 – Dec 2021)*

- **Multi-Wallet Ecosystem:** Contributed to backend development and maintenance of digital wallet applications including MyPay, PayWell, Chhito Paisa, and Thaili.
- **System Modules:** Built Admin, Merchant, and Client management interfaces utilizing ASP.NET Core and the Repository design pattern.
- **Utility Libraries:** Authored custom DLL libraries and Web API modules facilitating utility bill payments and real-time balance inquiries.

EDUCATION

Bachelor of Computer Science — Herald College *(Affiliated with University of Wolverhampton)*

Kathmandu, Nepal | Nov 2018 – Jul 2021
